Registry

The Jockey Club Registry is the breed registry for Thoroughbred horses in the United States, Canada and Puerto Rico. It integrates modern technologies into traditional registration procedures to streamline its operations for the benefit of all owners and breeders.

Interactive Registration (IR)

A FREE service that enables Thoroughbred owners and breeders to transact business electronically with the registry or access many of The Jockey Club's initiatives and identification services

Online Names Book

Check a name to see if it is currently in use or otherwise unavailable

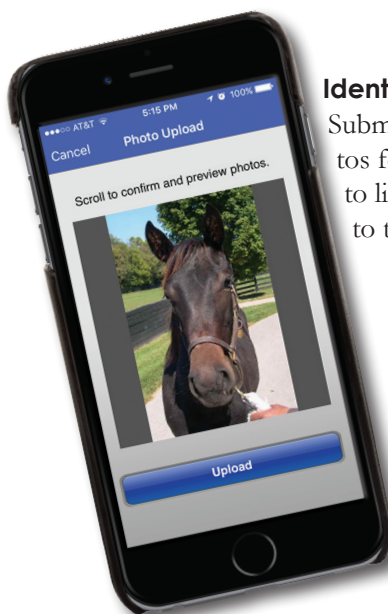

Registry Mobile

Enables customers to access the Online Names Book, Recently Released Names, and Tattoo Research

Naming App

Submit name claims, name changes, and name reserves directly to the Registry. Use the Generator to produce potential names for your Thoroughbred.

Identification App

Submit markings and upload photos for registration from your photo list and transmit them directly to the Registry.

Information Systems

The Jockey Club Information Systems Inc. (TJCIS) is the leading research and production source of North American Thoroughbred sales catalogue pedigrees. TJCIS writes catalogue pages for a host of sales companies. In 2015, The Jockey Club Information Systems purchased a majority ownership in Blood-Horse.

Equineline.com

The international source for Thoroughbred and American Quarter Horse pedigrees, race records, mare produce records and sire reports as well as the innovative Portfolio Service, Trainer Program, Farm Program and Owner Program management services.

Mare Produce Records Online Service/Apps

Unlimited access to important and continually updated information from around the world for every Thoroughbred mare and their offspring.

Sales Catalog App

Enables download of sales catalog books to iPads to assign ratings, record conformation notes and veterinary information, hand write notes, highlight pages, perform customized searches, create short lists, etc.

Custom Reports

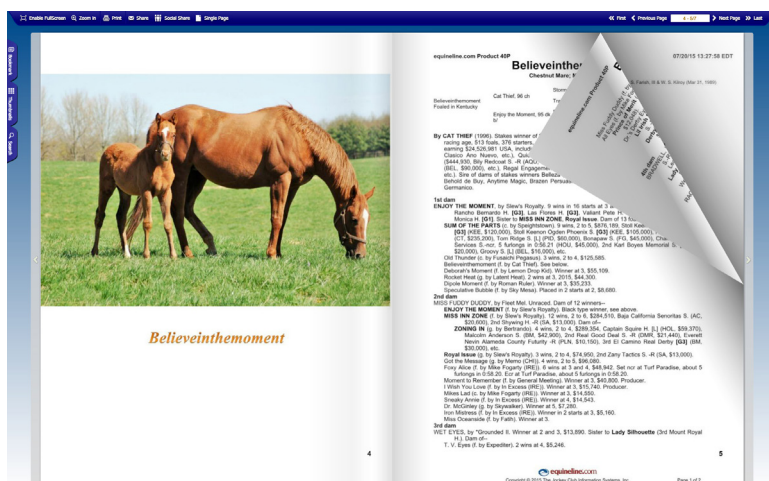

Reports developed from access to the worldwide database used by The Jockey Club Information Systems, from mating decisions to bloodstock investments, from detailed track information to specific racing and sales results.

Pedigree Binder

Free feature that provides a unique and easy way to manage, store and view your Equineline pedigrees online. The online binders can be personalized with your own photos and binder covers and easily shared.

Horse Farm Management System

Information such as Horse Inventory, Breeding and Health Record Information, Billing and Accounts Receivable Information for Board and much more are easily accessed. Healthbook enables use of a tablet PC with HFMS.

BLOODHORSE

The Blood-Horse's mission is to serve the Thoroughbred owner and breeder with integrity and improve breeding and racing through Thoroughbred magazines, *BloodHorse.com*, and a variety of professional products and services.

BloodHorse magazine is the flagship publication. Since its founding in 1916, the publication has blossomed into the Thoroughbred industry's premier international weekly news and information magazine and website for racing and breeding. *BloodHorse* magazine is also available weekly in an enhanced tablet version.

BloodHorse Daily provides the Thoroughbred professional daily news, analysis, race entries, and results. Available as a mobile application and a PDF emailed to you in a daily newsletter, *BloodHorse Daily* provides a recap of the previous day and an all-important look at the day ahead.

In addition, Blood-Horse publishes the *Stallion Register*, the breed's most comprehensive listing of breeding stallions; *Auction Edge*, the industry's leading Thoroughbred auction sales supplement; numerous annual professional products; and a number of publications such as *Keeneland* magazine, *New York Breeder* magazine, and *California Thoroughbred* magazine through our Custom Publishing Division. Online, Blood-Horse offers the most comprehensive national and international site for promoting stallions on *StallionRegister.com* and provides the TrueNicks™ pedigree rating system in partnership with a pair of companies specializing in pedigree analysis.

InCompass Solutions

InCompass Solutions Inc. is the industry's leading technology solutions and software provider for racetracks and simulcast facilities throughout North America. InCompass offers consulting to racing facilities to help them take advantage of statistical racing and customer data with a focus on the recommendations suggested by McKinsey & Company's "Driving Sustainable Growth for Thoroughbred Racing and Breeding."

Racetrack Operations System

Serves every Thoroughbred racetrack in North America. New enhancements include a race scheduling component, post time coordination tools, race placement and predictive handle modeling at time of entry. InCompass is currently in the design phase of a new enhancement to allow horsemen to make entries online as well as establish better communication between racing staff and horsemen.

Condition Book Matrix

The Condition Book Matrix module provides racing secretaries a retrospective statistical insight into how races with certain conditions have filled and displays eligible horses likely available to run in the geographic region. It provides a robust copy / paste feature to allow for very quick creation of new condition books.

Simo-Central.com

Provides web access to all North American simulcast programs in seven languages to simulcast sites around the world. A custom simulcast calendar is also available, which automatically alerts users to changes in host track schedules eliminating the time-consuming task of making regular calls to all simulcast partners.

Software and consulting services in support of customer segmentation, targeted marketing and loyalty programs. Various silos of data are assembled in a 360-degree view with in the software. Areas include wagering, admissions, ticketing, food and beverage, and gift shop.

TrackMaster

AN **EQUIBASE** COMPANY

TrackMaster, an Equibase Company, provides horse racing information to handicappers of every skill level, but with a particular focus on the more advanced player. TrackMaster offers a wide array of electronic racing products for all modern display devices for Thoroughbred, Quarter Horse and Harness Racing.

TrackMaster provides many enhanced and value-added statistics, including the TrackMaster proprietary Power Ratings, Equibase Speed Figures, Equibase Class Ratings, TrackMaster Pace Style Figures, Equibase Pace Figures, sire and dam information, jockey, driver and trainer statistics, in addition to investment return (ROI) statistics.

TrackMaster also services harness tracks and their websites by developing enhanced data for video broadcast, an automated morning line, an interactive statistical database called "StatsMaster," and a simple-to-understand selection product.

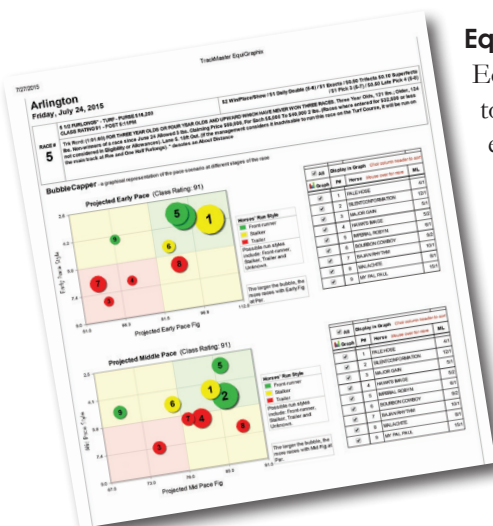

Pocket and Tablet Handicapper

The TrackMaster Pocket Handicapper for smartphones or the Tablet Handicapper for iPad or Android tablets gives users the power of TrackMaster in the palm of their hand to quickly handicap a race.

Pocket Handicapper Suite

Pocket Handicapper Suite for iPhone is an all-in-one handicapping tool that gives users access to a variety of TrackMaster products and reports, all delivered directly to their iPhone.

EquiGraphix

EquiGraphix is a visual handicapping tool presented in a simple format and enables users to access important data quickly and easily. Pace analysis, handicapping angles, speed figure patterns and much more are all contained in the utility.

TJC Media Ventures is a commercial subsidiary of The Jockey Club that oversees the new-fan development activities, primarily under the “America’s Best Racing” (ABR) brand. The company uses a multi-media strategy that involves traditional media outlets, television and mobile technologies as well as social and digital media to introduce new and casual fans to the vibrancy of the sport.

Through americasbest racing.net, ABR increases the profile and visibility of North America’s best Thoroughbred racing events, with a focus on the sport’s lifestyle and competition.

ABR also has two correspondents situated in two of racing’s largest regions: New York and California. The correspondents seek to attract social media influencers, bloggers, and a younger audience to the sport through a range of programs in partnership with local tracks.

Safety Net Foundation

The Jockey Club Safety Net Foundation is a charitable trust that provides, on a confidential basis, financial relief and assistance to needy members of the Thoroughbred industry and their families.

Assistance includes financial aid, medication, surgical and hospital costs, therapeutic equipment, voice-recognition computers for quadriplegics and wheelchair-accessible vans, among other needs. Since 1985, The Jockey Club Safety Net Foundation has disbursed more than \$15.5 million in benevolence.
